

# Lake of the Woods Mutual Water Company

## August 2021 Newsletter

### NO OUTSIDE WATERING

Still in effect since MARCH 29, 2014 to PRESENT Lake of the Woods Mutual Water Company customers will observe **NO OUTSIDE WATERING BY SPRINKLER OR HOSE.**

**The State of California is in a drought, please conserve!**

### Board Meeting

We would like to invite you to our Board Meeting for any questions you have, via zoom.com, August 5, 2021, & September 2, 2021 Board Meeting will be at 6pm, **Id# 817 5705 6752, Password 566959, Phone 669-900-9128.**

### Water Quality

We have been and continue to be in compliance with nitrate and fluoride levels in our system. That means our water meets the state requirements. Nitrate compliance was achieved in October and Fluoride was achieved in January of 2020.

### “Shut off Valves”.

All homes built in the Lake of the Woods service area are required to have a pressure regulator and shut off valve installed for the resident’s use on their property. Please mark your shut off valve in case there is a broken water line in your home. **The valve in the meter box is the water company’s valve. The meter shut-off valve must only be opened or closed, by water company staff.** If you set up an appointment with a plumber to install a house shut off valve or fix a leak also call to set up an appointment with our **distribution officer as well**, the shutoff and turn on fees will be waived during normal business hours if you have an appointment with us.

### Waterline replacement

Our grant to replace more old leaking water lines on our system, is moving forward with the state. We will let you know when the State funds construction.
